## 1. General

This document is part of the British Competition Rules (the "BCR"), and lists the rules and procedures relating to the British Alpine Seeding System (BASS). Refer to BCR Book I for overall details about BCR and its application.

## 2. Application

- 2.1. Races must be run according to FIS ICR, or as varied by the British Competition Rules BCR).
- 2.2. The following categorization of races is applicable to races processed through the British Alpine Seeding System (BASS): -
  - British & MG (FIS)
  - British (non-FIS)
  - Member Group (non-FIS)
  - Club

## 3. Procedure

- 3.1. The race must be listed on the British Calendar.
- 3.2. As part of one event, only two races per discipline (or four for Children's technical disciplines) may be announced in the British Calendar and taken into consideration for BASS points within a period of 5 days on the same homologated course. The organisation of replacement competitions in addition to an event with two races per discipline is not permitted. For such additional competitions, no BASS points will be given.
- 3.3. For British & MG (FIS) races, the FIS TD Committee will appoint a TD. For British & MG (non-FIS) and Club races, a TD appointed by the Snowsport GB TD Forum or MG TD Committee must attend the event. MGs should inform the Chairman of the Snowsport GB TD Forum of appointments made.
- 3.4. The appointed TD is responsible for sending copies of the race results and the TD report to Snowsport GB Office, Chairman Snowsport GB TD Forum and the National Seeder. For British & MG (FIS) races, the Race Organising Committee takes on this responsibility. For all races, the Race Organising Committee is responsible for distributing copies of the results to its own members and to the responsible MG.
- 3.5. If there is doubt about the acceptability of a race for seeding purposes, it shall not be processed into the seeding system until the TD Forum has resolved the matter.

## 4. Competitors

- 4.1. All registered Children I and II, Juniors I and II and Seniors are eligible to earn seed points.
- 4.2. All races, which are submitted for seeding, must be open to all competitors registered with BASS. The organisers of a MG or Club race are obliged to accept up to 25 entrants from other organisations.
- 4.3. Subject to para. 3.2, the start list shall be drawn up according to the current FIS/BASS seed list with ICR applying to the second run.
- 4.4. Irrespective of the start order applied in mixed age group races, children's results will be seeded as a separate race from Junior/Seniors

- 4.5. Girls must race separately, either before or after the boys if the same course is used.

## 5. Courses

- 5.1. GS races should comprise 2 runs. SL must comprise 2 runs, while DH and Super-G will normally comprise only 1 run.
- 5.2. The winning time in any run must be expected to exceed 30 seconds.

## 6. Calculation of Seed Points

### 6.1. Start of Season List

- 6.1.1. This is published in early December and includes only those racers who have renewed their registration for the following year.
- 6.1.2. Seed points for each discipline (SL, GS, SG and DH) are the minimum of the following: -
  - a) The seed points which appeared on the preceding End of Season (EOS) List.
  - b) The current FIS points. Points which derive from the FIS Points List are annotated by an 'F'.
  - c) Seed points calculated from the previous season's British/MG/club races, loaded as appropriate (if not already in EOS list).
- 6.1.3. These Points are referred to as the Start of Season (SOS) points, however they were derived. In the case of skiers who register late or produce relevant documentary evidence late, these points will be mounted on the BASS database as if they had been on the SOS list. However, they will only appear on BASS lists published after their registration or evidence has been processed.

### 6.2. Mid Season Lists

- 6.2.1. For the second, third and fourth seed lists, the points for each discipline are the minimum of the following: -
  - a) The SOS points.
  - b) The average of the best 2 results earned in races during the current season.
  - c) The best result earned during the current season plus 10%.
  - d) The current FIS points.

### 6.3. End of Season List

- 6.3.1. For the final list, the provisional points for each discipline are the minimum of the following: -
  - a) The SOS point plus the greater of a 15% loading or 15 points.
  - b) The average of the best 2 results earned in races during the current season
  - c) The best result earned during the current season plus 10%.
  - d) The current FIS Points.

- 6.3.2. In order to calculate the final (published) seed points for the end-of-season list, the provisional seed points for all competitors in the Children 1 and Children 2 categories shall be adjusted by a value which sets the points of the best ranked competitor in each discipline to 150 points.
- 6.3.3. For all other age categories, the final (published) seed points for the end-of-season list shall equal the provisional points.

## 7. Registration and the Allocation of Points

- 7.1. A racer who does not register as a competitor, for up to 2 seasons, may claim his previous points if he re-registers for seeding. These will be subject to an annual loading of 15% (or +15 if greater).
- 7.2. Foreign racers may have their foreign seed points recognized for conversion (on a suitable basis) on initial registration with BASS.

## 8. Race Acceptability

- 8.1. The National Seeder will consider for seeding only those race results, which have been approved by the TD Forum.
- 8.2. A race which is to be processed for seed point purposes may, in exceptional circumstances, be run in other than seed point order. Organisers of team events should consult the TD well in advance of the race to ensure that the start order proposed is acceptable for seeding purposes.
- 8.3. The TD Forum has discretion to approve races for seeding, which do not strictly comply with the ICR/BCR. In making their decision, the Forum should consider inter alia the recommendations of the appointed TD & the National Seeder and the interests of all registered racers, not just those who competed in the race being considered.

## 9. Calculations for British & MG (non-FIS) and Club races

- 9.1. Race Points. These are calculated by the formula: -

$$P = \frac{(Tx - To)}{To} \times F$$

where: -

P = Race Points

Tx = Racer's Time in seconds

To = Winner's Time in seconds

F = 'F' factor, announced annually for each discipline.

- 9.2. The Winner. For seeding purposes, the Winner is the first placed BASS registered racer.

### 9.3. Race Penalty Point

- 9.3.1. The Race Penalty Point (RPP) is calculated as follows:

$$RPP = \frac{(A + B - C)}{10}$$

where: -

B = Seed Point total of those 5 racers who started the race who have the lowest BASS seed points

A = Seed Point total of those 5 racers in the first 10 BASS registered finishers who have the lowest BASS seed points

C = Total of Race Points of the corresponding 5 finishers

- 9.3.2. The RPP shall be calculated using the seed points on the BASS Seed List valid at the date of the race. Current FIS points for non-BASS registered racers will be taken into account.
- 9.3.3. If the calculated RPP for any Children's race is less than 150 points, the applied penalty shall be 150 points.
- 9.3.4. For a race to be seeded, at least five racers must finish, and at least three racers finishing in the first ten places must have current BASS points. If there are only 3 (or 4) racers with current BASS points finishing in the first 10 places, then the values A, B and C in 10.3.1 above shall be based on 3 (or 4) racers respectively and the RPP shall be: -  

$$(A+B-C) / 6 \text{ (or } 8\text{)}.$$
- 9.3.5. If two or more racers are ranked 10th (BASS registered only), they shall all be taken into consideration for the penalty calculation, as long as they are included in the five with the best BASS points.
- 9.3.6. If two or more racers have the fifth best BASS points, which should be taken into consideration for the penalty calculation, the racer with the higher race points will be considered for the penalty calculation. Reason: Better penalty.
- 9.3.7. Where there are insufficient finishers to calculate a penalty in the Junior/Senior section of a race including Children, the Children's penalty will be applied and the race points (including negative points) for the Juniors/Seniors will be calculated by reference to the winning child's time. Any Junior/Senior results calculated in this manner shall be subject to a minimum value for each racer equal to the best result achieved by that racer in the same discipline prior to this result in the current or previous season.
- 9.3.8. Where there are insufficient finishers to calculate a penalty in the Children's section of a race including Juniors/Seniors, the National Seeder will recommend a course of action to the TD Forum Chairman, which may include a recommendation that the Children's results should not be seeded.
- 9.3.9. The TD will normally calculate and announce the provisional RPP at the conclusion of the race.
- 9.3.10. Points Earned from race. The Result used in the seeding calculation, is the sum of (RPP + racer's race points).

## 10. Calculations for British & MG (FIS) races

- 10.1. The FIS result (FIS RPP + FIS race points) for each BASS registered racer shall be copied straight onto the BASS database. There is no separate calculation using BASS points.

## 11. Foreign Racers

- 11.1. Only racers currently registered with BASS will be processed for seeding.

## 12. Seeder's Authority and Referral to the TD Forum

- 12.1. The National Seeder cannot vary these rules except when he sees that the inclusion of a race will produce aberrant Seed Points. The race will then not be included but will be referred back to the TD Forum, together with suggestions for proceeding.

### 13. Notification of Refusal to Include a Race

The non-acceptance of a race for seeding shall be notified, together with reasons, to the TD and the Chief of Race. The reasons for non-acceptance shall be published in the BASS Seed List.

### 14. Issue of Seed Lists

Seed Lists are now published on the Internet only – currently at [www.britski.org](http://www.britski.org) There will normally be five Seed Lists each year. The closing, publication and validity dates for each list will be published at the start of each race season.

### 15. Content of Seed Lists

The SOS List is to include the names and abbreviations of all clubs included in the BASS. The BASS record is the British master list, and MGs should consult it before adding additional abbreviations. Any new abbreviations are to be advised to the National Seeder, who will also resolve any clashes. Each Seed List is to include a list of the races that have been included together with their RPP, or the reason for their non-inclusion (e.g. cancellation, lack of finishers etc).

### 16. Receipt of Race Results

The appointed TD must dispatch his report and the Race Results direct to Snowsport GB Office, the Chairman of the TD Forum and the National Seeder within 3 days of completion of the race. For British & MG (FIS) races, the Race Organisation Committee is responsible. Seed Lists will not be delayed beyond their scheduled publication date, unless the TD Forum considers it essential to await a particular race result.

### 17. Protests, Queries and Appeals

#### 17.1. Protests

Any protest or query on seeding is to be made in writing to the National Seeder for investigation and action. This may be in conjunction with the Chairman of the TD Forum.

#### 17.2. Appeals

Protests against seeding decisions may be made to the TD Forum. The procedure for further appeal is detailed in the TD Forum's Terms of Reference - details from Snowsport GB office.

### 18. Document History

Edition	Date	Description of changes
2006	Nov 2006	Document created from "BCR 2004".
2009	05-Dec-2009	No change.
